TECHNICAL SKILLS

C

Java

Python

HTML

SQL

SOFT SKILLS

Problem Solving

Communication Skills

Team Work

Time Management

Attentive Listener

HOBBIES

Puzzle Solving

Drawing

Listening Songs

OBJECTIVE

Looking forward to work with an organization where I can learn new skills, expand my knowledge, and contribute to the success of the company.

EDUCATION

Ravindra College of Engineering for Women, CSE - B.Tech, 7.5 CGPA
2022 — 2026

Narayana Junior College, MPC - Intermediate, 8.2 CGPA
2020 — 2022

Montessori Indus English Medium High School - SSC, 9.5 CGPA
2019 — 2020

INTERNSHIP

AI Data Quality Analyst - Roman Technologies

May 2025 — Jul 2025

Assisted in AI data quality analysis through cleaning, validation, and preprocessing. Gained hands-on experience with Python, Excel, and data visualization tools. Contributed to improving dataset reliability for AI system development.

PROJECTS

Automated Crop Disease Detection using Deep Learning

Developed a deep learning-based crop disease detection system achieving 89% accuracy on leaf images using DenseNet-121 and transfer learning. Applied image preprocessing and data augmentation to improve model generalization and reduce overfitting. Evaluated performance using precision, recall, F1-score, and confusion matrix for robust multi-class classification. Designed the system for real-time crop monitoring and early disease detection in smart agriculture.

IBM Cloud Chatbot using Watson Assistant

Developed a rule-based AI chatbot using NLP to handle user queries. Designed intents, entities, and dialog flows for accurate and structured responses. Deployed the chatbot on IBM Cloud for real-time web-based interaction. Tested and refined responses to improve user experience and accuracy.
